ICE DEALER SAYS HE LOSES MONEY

STATEMENTS OF DR. THOMAS UNTRUE, EVERHART SAYS.

NEW CHARGES ARE MADE

"We Must Have Full Weight and Pure Ice," Says Leader in Second Statement.

That he is not only not profiteering but is actually losing money on the ice he ships in from St. Joseph to supply his customers is the declaration made this morning by William Everhart, Maryville's only ice dealer, in answer to charges made by Dr. D. J. Thomas.

On the other hand, Dr. Thomas reiterates his charges that the only reason for an increase in price to $1 per hundred pounds is that a monopoly exists. He further charges that the dealer has made false representations as to the quality of ice furnished consumers and that the ice users do not get the full weights for which they pay.

Invites Inspection

"The statement and figures made by Dr. Thomas in the papers Friday are untrue and unfounded," said Mr. Everhart today in talking to a Democrat-Forum reporter, "Anyone wishing the true facts and figures in the case are more than welcome to call at my office and see my books. I have conducted my business in Maryville for twenty-seven years without advice from anyone acquainted with the business and I feel that I can continue to do so".

Mr. Everhart stated that the present siuation is governed simply by the law of supply and demand.

"The hot weather started much earlier this year than usual," he continued, " and our reserve supply was consumed earlier this year than it ever has been in the past. We had 500 tons of storage ice which has been practically all used. Because of the weather conditions the demand has been much greater and the supply much smaller.

"The mild winter made it impossible to put up any natural ice this year and the capacity of our plant is insufficient to supply the demand."

When asked if he shipped out any ice, Mr. Everhart said the only ice going out of town was a small amount being hauled in autos by small communities such as Wilcox and Sunnbrook.

Pays $9 for Ice

"On the other hand", declared Mr. Everhart, "I am compelled to ship in ice to meet the demand. I am receiving two and three car of ice a week from St. Joseph, paying $9.00 a ton, F. O. B., St. Joseph for it. Only this morning I received notice that they were advancing my price $1.00 per hundred.

"Maryville would be without an ample supply of ice right now had I not contracted for this St. Joseph ice early in March. As it is I am actually losing $25 to $50 on every car of ice that I ship in."

Mr. Everhart again repeated his invitation to anyone interested in the ice situation to call at his office and get the actual facts in regard to the price of ice, and the increased demand.

Dr. Thomas' statement today was as follows:

"In my communication, published in both the Democrat-Forum and the Maryville Tribune last Friday, I made some specific statements regarding the conditions underlying the manufacture and sale of ice in Maryville.

"I charged that the recent increase demanded by Mr. Everhart was, and is, wholly unjustifiable, and by inference touched on the subjects of weight and quality. On these two points, I desire to have something

DEATH LIST REACHES SIX IN CRASH OF ARMY PLANE

Government Aviators Plow Into Row of Parked Automobiles—Both Airmen Saved.

Moundville, W. Va., July 11.—One death during the night brought the total to si fatalities today resulting from the crashing of a government owned Martin bombing plane into a row of parked automobiles here today. The plane had risen about thirty feet when, swinging sharply to the left, it seemed about to crash. An attempt was made to throw the plane into the Ohio river. They were flying too low and the attempt proved futile and the plane crashed into the automobiles. Both airmen were rescued from the wrecked plane.

THIEVES STEAL CAR LEFT OUTSIDE CLEARMONT CHURCH

James Gragg and Family Hear Car Driven Away—Ofifcers Notified But No Clues Found.

Thieves stole a Ford touring car belonging to James Gragg, living a mile and one-half east of Clearmont, last night, while the members of the family were attending services at the Clearmont Baptist Church. During the services, a car was heard leaving but the family unaware of the robbery until the services were over about twenty minutes later.

Telephone calls were made to Maryville authorities and several other towns but up to the present time, no clues have been found.

The car was a 1918 model and, according to the family was in good working order. The license number was 180553.

MOZINGO HOUSE EAST OF MARYVILLE BURNS TODAY

Origin of the Fire Not Known—Furniture Saved and Loss Partially Covered by Insurance.

The house on the S. L. Mozingo farm east of the river, burned to the ground this morning, the fire being first discovered about 8:30 o'clock. Most of the furniture was saved and the loss was partially covered by insurance.

The fire was discovered when Mrs. Mozingo noticed the smoke out of doors. The threshers at the D. D. Bagby farm nearby were called and helped save the furniture and protect other property. The cause of the fire is not known. It appeared to have started in the south end of the smoke house which was standing close to the house, or it possibly started from a fire in the kitchen stove.

The Maryville fire department was called but as there would have been no water connection, and the fire would have been to far under way to extinguish it with chemicals, and also because Maryville would have been left without protection, the fire department did not make the run.

"BAD BOYS" CAUSE MUCH TROUBLE FOR OFFICERS

Three Severely Reprimanded by Judge Dawson—Might Have Wrecked Train.

Len Hawk, Jasper Davis and Oren Oliver Dickerson Gunn (colored) were brought before Judge Dawson in Juvenile court this morning. Len Hawk was charged with taking a bicycle from in front of the Christian church yesterday morning, and Gunn and Jasper Davis were charged with placing obstructions on the Burlington railroad tracks last Thursday.

Gunn and Davis were brought before Judge Dawson Thursday and released and brought back again today while the special agent of the Burlington Railroad was here. The boys were given a strong talk by the judge and released.

The obstructions placed on the Burlington tracks last Thursday were found by a boy who was going to the pasture ofter his cow. They were of such a character that if they had been left there would have wrecked the trains.

A number of other complaints have come to the sheriff concerning the actions of boys in the East part of town.

To Lake Okoboji.

Conrad Yehle and son, Cleo, W. J. Montgomery and F. P. Reuillard left yesterday morning in the Yehle car for Lake Okoboji, Ia., for a week's outing.

Charles Denny returned to his home in Kansas City yesterday after visiting in Maryville with his mother, Mrs. Martha T. Denny.

Mrs. E. L. Drumm of St. Joseph is in Maryville visiting her sister, Mrs. Anna Basford.

SPEEDER CAUSES SERIOUS ACCIDENT

DELIVERY CAR STRIKES BUGGY WITH SIX OCCUPANTS

6-YEAR-OLD BOY HURT

Son of Ike Blacketer is Thrown Under Heels of Horse—John Knox Pays $25 Fine.

The 6-year-old son of Ike Blacketer was kicked in the face and severely bruised by a horse Saturday night when a delivery car for Stapler's Meat Market, driven by John Knox, hit a shaft of the buggy in which they were riding and threw the child out of the buggy. Knox appeared in police court this morning and pleaded guilty to a charge of speeding. He was fined $25 and costs by Mayor F. P. Robinson.

The accident occurred about 10 o'clock Saturday night while Mr. Blacketer and his family were returning home from Maryville. There were six in the buggy which was going south on Buchanan Street. Knox was coming north. He was coasting he said, and did not see the buggy because his lights were dim. As he swung to the center of the street to make a turn he hit the shaft of the buggy and threw the child out under the horse's feet.

The child had a gash cut under his eye and his face was badly bruised. He was taken to the office of Dr. Will Wallis where he was treated, after which he was taken to the home of relatives.

The other occupants of the buggy were not hurt. The shaft was broken and the front of the buggy torn up.

Mr. Blacketer lives on the Allen Brothers' farm a mile and a half southeast of town.

City Marshal E. E. Tilton made the arrest. He said there had been many complaints about speeding on Buchanan street. Knox, he says, has been one of the worst offenders, and an earlier arrest might have prevented the accident.

MARYVILLE BOY IS MAKING ENVIABLE COACHING RECORD

John Kirker Sawyers, Jr., Goes to West Virginia School at Good Salary.

John Kirker Sawyers, Jr., son of Mr. and Mrs. J. K. Sawyers, Sr., has accepted a position as athletic coach at the Farmington, W. Va., High School for the next year, he says in a letter to the Democrat-Forum. His salary will be $200 a month and his work will be largely athletics.

Sawyers was at Shadyside, Ohio, last year, where he had unusual success. The sports editor of the Wheeling (W. Va.) News says of him:

"This will be a promotion for the Shadyside man, who has been working in this capacity in several schools in the Tri-State during the past few years, each year getting a better opportunity.

"Sawyers made the athletic heads of Ohio Valley school open their eyes last winter when he turned out a basket ball team that caused the best of them to look to their laurels. It was the greatest impression the Shadyside team has ever made on Ohio Valley athletics and Sawyers deservedly got the credit for it, for it seemed unlikely material in hand at the beginning of the season.

"The showing of the Shadyside team at the Bethany tournament capped the climax of the successful season and only the strong Linsly floor team was able to put the Shadyside boys down.

"The Farmington High school last year had a good baseball team and a promising floor quintet. With Sawyers at the pilot, things should look right for the boys there for if anybody can turn out a floor team where there is the least bit of material, Sawyers is the man for the job."

Farmington is a small town located seven miles from Fairmont, W. Va. Fairmont is one of West Virginia's best towns. The high school to which Sawyers goes is a centralized one unusually well equipped for all kinds of work and athletics.

"Last year, the athletes there made a good record, and I hope to turn out a great five and nine next year," says Sawyers. "My work will be largely athletic with some three classes such as commercial law, sociology, economics or maybe a little English.

"I expect to get to Maryville for a visit the latter part of this month or early in August."

CRITICISM OF J. J. TIGERT VOTED DOWN BY TEACHERS

Attack Is Made on New Commissioner of Education at National Convention.

Des Moines, Ia., July 11.—An attempt to put the National Educational Association convention on record as criticising President Harding's appointment of J. J. Tigert as commissioner of education failed.

J. W. Hathaway of Florida proposed a resolution aimed at the Tigert appointment, which would have recommended appointment to high educational offices only of those 'qualified by training and experience, without regard to geography and politics.'' The resolution was voted down.

Commissioner Tigert gave an address here Thursday morning to students and public at the State Teachers College.

STATE DROPS POISONING CHARGE IN KABER CASE

Defense Hails Action as Victory for "Stone Woman", Alleged Murderess of Husband.

Court House, Cleveland, July 11.—The state today withdrew the first count in it's indictment charging Mrs. Katherine Kaber, the "stone woman", with attempting to poison her husban, Daniel Kaber, wealthy Cleveland publisher.

They gave no explanation and the defense hailed as a victory for the accussed woman, declaring that the state had failed to prove the poison charge. The state rested its case immediately following this.

The accused woman will bare her soul as the last witness for the defense in a supreme effort to escape death in the chair, her attorney announced.

GUN CLUB MEMBERS SHOOT SECOND BLOCK IN CONTEST

Several With Big Handicaps Make Perfect Score—Conder Breaks 'Red Target.''

The special prize of $1 offered to the member of the Gun Club breaking the 'Red Target'' aroused quite an active interest in the practice event which started yesterday and will be continued throughout the month. A special match of twenty-five targets from the twenty-three yard rise was shot by Winans, Phipps, Conder, Robinson and Souers. It was won by Conder, who broke eighteen with Winans a close second with seventeen.

Several members of the club will go to Bedford on July 15 to particiapte in a registered tournament there. They hope to be able to arrange for an exhibition by a number of professional shooters to be here at the regular meeting next Sunday.

The score yesterday at twenty-five target practice was: Winans 16, Kuch 9, Conder 19, Bennett 5, Geist 16, Souers 19, Williams 8, Touhey 9 and Robinson 13.

For the trophy handicap, twenty-five target:

	Handicap	Broke	Total
Winans	5	21	25
Yeaman	11	18	25
Geist	8	15	23
Conder	9	18	25
Kuchs	15	14	25
Bennett	16	12	25
Souers	5	14	19
Touhey	10	13	23

WHEW! IT'S SURE HOT—BUT NOT SO HOT AS WE THINK

The mercury reached 93 at 12:30 o'clock today. 95 Sunday and 96 Saturday, according to the official weatherman, J. R. Brink. Sunday night was the hottest night when the thermometer registered 70. This morning it was 65 degrees.

Miss Fay Thompson of Amity, Mo., a student of the State Teachers College was a Sunday guest at the home of Mr. and Mrs. Charles DeNeen.

Miss Ethel Brandt spent the week end visiting at the home of Miss Lucile Freemeyer of Sheridan.

HOUSE COMMITTEE FOR COUNTY ROADS

ADOPTS PLAN FOR DISTRIBUTION OF $60,000,000.

BASED ON "SQUARE ROOT"

Legislators Scratch Heads and Brush Up on Arithmetic to Find Their County's Share.

Jefferson City, July 11.—The house committee on roads has adopted a plan calling for distribution of most of the $60,000,000 road fund among the counties, according to "the square root of their areas.'' The plan also calls for ependiture of the state road fund on roads of a higher type than gravel.

Hard-surfaced roads advocates on the committee appeared to be greatly in minority. Leaders expressed the opinion that the resolution adopted will make more difficult the task of reconciling the views of the house with the hard-surfaced road plan of the Ralph road bill enrossed by the senate yesterday.

At the suggestion of Representative Whitaker, Hickory county, the resolution provided that three-fourths of the $60,000,000 state fund and $10,000,000 of the estimated $35,000,000 federal aid money, if obtained, shall be divided among counties according to "the square root of their areas.''

Look Up Formula.

Many legislators, when they learned of the adoption, began figuring how the "square root'' formula will work out for their respective counties.

The resolution adopted, of which Representatives Morgan, Putnam county, and Whitaker, Hickory county, are the authors, reads:

"Resolved, that it is the sense of the committee that all available funds (including federal aid) shall be apportioned and expended upon the state road system as follows:

"Three-fourths of the first $60,000,000, and two-sevenths of all available funds above that amount, among the various counties of the state (not including St. Louis city) in proportion to the square root of their respective areas. Provided, further, that no less than $300,000 shall be expended in each county of the state.

"Provided, that if this amount is insufficient to complete each cross-country highway of the type needed to serve the needs of said county, such additional money shall be added as shall be required to complete the construction of the cross-country highways and connect them up with like roads of surrounding counties and states. Provided, further, that no appropriation shall be made by the state highway department to any county for a higher type of road than gravel or clay-bound gravel until the two cross-country highways have been apportioned sufficient funds to construct and complete them up to the standard required by the federal government as a gravel road or a clay-bound gravel road suitable for such county, after which time the state highway commission may make such additional apportionment to such highways as in its judment may be necessary for the construction of a higher type of road than gravel or clay-bound gravel on such state roads as in its judgment may be required to take care of the heavier traffic of such county.''

May Increase Mileage.

To meet the desire of several rural members for increased mileage in their respective counties, the house committee is endeavoring to add several hundred miles to the present state system and connecting roads, now totalling 6,700 miles. A. W. Graham, state engineer, was called before the committee to discuss additional mileage. No action was taken.

Each county shall be reimbursed from the state road fund for the full value of the roads now constructed, considering the type of road advocated by the state highway commission in that particular county, the house committee decided. State and federal aid received by the counties would be returned. No estimate was available as to how much o fthe $60,000,000 fund this woud absorb.

ELK'S DANCE

DISCOVERY OF OIL STARTS STAMPEDE TO SENECA, KAN.

Well Shooter Is Killed in Accident, but High Explosives are Not Set Off.

Seneca, Kan., July 11.—Thousands of people flocked to this town the past twenty-four hours to witness the shooting of an oil well. The estimated flow from the well is from a thousand to two thousand barrels a day.

Niles Ross, of Paola, Kan., an oil well shooter, who was to have brought the well in today, was killed and his wife received injuries from which she died in the Topeka hospital a short time later, when a car in which they were motoring to Seneca collided with another motor car near Topeka last yesterday. Six cases of dynamite, a thousand pounds of nitroglycerine and ignition caps which Ross had in his car for shooting wells failed to explode.

VACATION BIBLE SCHOOL PUPILS READY FOR CLOSING

Classes Will be Shown in Operation Tomorrow Night at First Presbyterian Church.

Pupils of the Daily Vacation Bible School are ready for their closing exercises at 8 o'clock tomorrow night at the First Presbyterian Church. Everyone inteersted in religious education and efforts to serve the boys and girls of the community is invited Especially is this invitation for parents whose children did not attend the school.

Since the school is a new thing for Maryville, and to most of the Maryville people, it has been decided to give a demonstration of the regular daily program, in part, and to include some of the special features. The audience will be seated in the main auditorium, which the fans will keep comfortable, and the school will meet in the Sunday School rooms which will be thrown in with the auditorium. The program will not last more than about an hour. The craft work will be on display.

The last session of regular work will be Tuesday morning.

FUNERAL OF JAMES JOYCE AT LINCOLN, NEB. THURSDAY

Former Resident of Nodaway County Thought to Have Been Murdered In Florida.

Funeral services for James Joyce, a former resident of Nodaway County, who messages from Pahokee, Fla., say was murdered there last Wednesday, will be held Thursday at his home in Lincoln, Neb.

Mrs. Joyce, who has been visiting here with Mr. and Mrs. J. T. Well, left Friday afternoon for Lincoln, after receiving a telegram from the sheriff at Pahokee.

Mr. Joce went to Florida last Febuary for his health and to attend to business interests. He was deep in the Florida Everglades, a day's boat ride from West Palm Beach, when the alleged murder was committed. He was found dead in bed with a bullet hole in his head.

A coroner's jury ordered the holding of a man named Lewis who reported the finding of the body. Circumstantial evidence points to him as the murderer, it is said.

The last letter received from Joyce, dated June 26, said that he expected to be home in two or three weeks, as soon as he could wind up some business affairs. Mr. and Mrs. Joyce lived in Nodaway County for many years, leaving here three years ago to go to Lincoln. He was 60 years old.

He is survived by his wife, two brothers, John Joyce of Des Moines, Iowa, and Martin Joyce, Oklahoma City, Oklahoma, and three sisters, Miss Anna Joyce, Kewanee, Ill., Mrs. Bridget Kavanaugh, Kewanee, and sister, Theela, Joliet, Ill.

U.S. MAKES MOVE FOR WORLD PEACE

HARDING ASKS FOR CONFERENCE ON DISARMAMENT.

LLOYD GEORGE ACCEPTS

'World Has Been Looking to America to Take Such a Lead,'' Premier Says.

London, July 11.—Premier Lloyd George in addressing the House of Commons this afternoon pledged the support of the British Empire to President Harding's efforts to bring about an International conference for discussion of the Far East problems and action on armaments.

'I welcome with the utmost pleasure, President Harding's wise and courteous initative,'' said the Premier. ''The world has been looking to America to take such a lead.''

Washington, July 11. — President Harding has approached Great Britain, France, Italy and Japan with a view to the holding of a disarmament conference in Washington.

The president furthermore has suggested to the powers interested in problems of the Pacific and Far East that subjects relating thereto be considered at the same conference at which it is proposed that disarmament be discussed.

These announcements were embodied in a statement issued last night by the state department 'by direction of the president.''

The statement said:

''The president, in view of the Far Eastern question of limitation of armaments, has approached with informal, but definite inquiry, the group of powers hereafter known as the principal Allied and associated powers, that is, Great Britain, France, Italy and Japan, to ascertain whether it would be agreeable to them to take part in a conference on this subject to be held in Washington at a time to be mutually agreed upon. If the proposal is found to be acceptable, formal invitations for such conference will be issued.

''It is manifest that the question of limitation of armaments has a close relation to Pacific and Far Eastern problems and the president has suggested that the powers especially interested in the problems should undertake in connection with this conference the consideration of all matters bearing upon their solution, with a view to reaching a common understanding with respect to principals and policy in the Far East. This has been communicated to the powers concerned and China has also been invited to take part in the discussion relating to the Far Eastern problems.''

Washington, July 11.—An appeal to America by the far Eastern Republic to compel Japan to withdraw her troops from Siberia "at the earliest possible date", is contained in a note handed to the American minister in Peking, the text of which reached here today.

Similar notes were [illegible] British and Chinese.

Gibbons May [illegible]

Osakis, Minn., [illegible] Gibbons, St. Paul [illegible] offer today of $60,000, [illegible] Carpentier. Dick Curie, promoter, is after the match. bons is here on a fishing trip.

THE WEATHER

Partly cloudy, somewhat unsettled to-night and Tuesday; possibly showers in the southwest portion; continued warm.

LARGEST CIRCULATION IN NODAWAY COUNTY

Heat lightning is ascribed to far-off lightning flashes, reflected from higher strata of clouds.

Italy and Japan have had about 35,000 earthquakes in the past fifty years.

Porto Rica is unusually fertile and its dominant industries are agriculture and lumbering.

In 1919 the United States imported 1,390,331 cords of pulp wood.

Two Rhodes scholarships to the University of Oxford are assigned to each state in the Union.

CROP CONDITIONS BETTER THAN 1920

96 PER CENT CONDITIONS FOR NODAWAY COUNTY CORN.

6,269,000 BU. OF WHEAT

Too Dry for Good Prospects in Portions of Holt and Atchison Counties.

Jefferson City, July 11.—Missouri farmers are threshing 32,654,000 bushels of wheat from 2,744,000 acres, with 45,965,000 bushels of oats on 1,846,000 acres, and have 6,283,000 acres of growing corn, indicating 186,605,000 bushels according to farmer made returns in the state federal July crop report announced today by E. A. Logan and Jewell Mayes of the United States and State Department of Agriculture, showing the combined yield of wheat, corn, and oats under present conditions to be 265,224,000 bushels against 251,393,000 in 1920.

The farmers of Nodaway county report planting 174,160 acres of corn with July condition of 96 per cent, which forecasts a total county production of 6,269,000 bushels. Wheat harvested upon 37,390 acres, at 75 per cent, will yield 598,240 bushels. The oats for the county upon 30,530 acres (with condition of 80 per cent) is forecasted at 885,370 bushels.

Missouri farmers planted 6,283,000 acres of corn which is 178,000 less than the five year average. The July condition of corn is 90 per cent against 82 per cent last year (the 10 year average) indicates 29.7 bushels per acre, totalling 186,605,000 against the July, 1920 prospect of 179,110,000 bushels. Corn improved rapidly during June and is generally clean, a good stand and dark green color. Occasional sections are weedy, due to lack of cultivation, and in some communities the plants are late and small.

Northwest Missouri has excellent prospects except in portions of Holt and Atchison where it has been too dry. Northeast Missouri was somewhat too dry, also several counties in the southeast, where the crop is ten days to two weeks late. The sections suffering from drouth were relieved somewhat the last days of June and first days of July. In middle and west sections of the state corn grew so fast that needed cultivation has not been given in all fields. Chinch bugs are appearing on corn in the eastern counties from Clark to Warren and at scattered points on the west side as far south as Stone. The prospect is much better for a good corn crop that at this time last year, but the critical period will come from the 10th to the 25th of the month. Continuation of the present high temperatures without plenty of moisture would be disastrous to Missouri corn.

Missouri wheat lost 14 points or 8,143,000 bushels during June. The condition of 68 per cent, compared to 75 per cent last year and 10 year average of 79 per cent, indicates 11.9 bushels per acre against 12½ last year, totalling 32,654,000 bushels compared to 32,721,000 in 1920. Overflows during June carried off thousands of acres of wheat along the Osage and other streams. Wheat instead of ripening naturally in June "apparently died within a day or two," evidently from rust and blistering sunshine. Heads are generally short and poorly filled, but there is plenty of straw everywhere. Threshing returns, thus far, are disappointing in most sections. Threshing has been delayed by wet weather, and considerable wheat has been damaged in the shock.

Farmers report the causes affecting the 1921 wheat yields as pasturing too late, many spring freezes, repeated excesses of moisture and high temperature, rust, Hessian fly, chinch bugs, green bugs and at ripening time too hot, harvesting followed by damaging rains.

Missouri oats are 72 per cent against 83 per cent a year ago, with 78 per cent the 10 year average. The July condition indicates 24.9 bushels per acre, totalling 45,965,000 bushels against 54,138,000 in 1920. Thus 1921 is the lowest acre yield since 1916 and two bushels less than the 10 year average. Storms the latter half of June lodged much of the grain, preventing harvesting at the proper time, and resulting in loss in many places, live stock having been turned in to save the crop.

Hay condition 79 per cent compared to 82 lastyear, 75 per cent the 10 year average, indicating 1.08 tons per acre against 1.24 last year with 10 year average of 1.07, forecasting 3,013,000 tons against 3,327,000 in 1920. The crop is thin and weedy. Alfalfa is 79 per cent clover 77 per cent, millet 84 per cent, grain sorghum 89 per cent, cowpeas 89 per cent, and soybeans are late. Prairie hay is good. Pastures, 93 per cent.

Gardens made a good growth during June. Potatoes 82 per cent, sweet potatoes 91 per cent, tomatoes 90 per cent, cabbage 89 per cent, onions 92 per cent, watermelons 85 per cent, and cantaloupes 85. Fruits are very short, grapes 50 per cent, blackberries 78 per cent, and peanuts 87 per cent.

Crop conditions are favorable. Live stock are healthy. Wool is averaging 15 cents per pound and slow sale. Fleeces average 6½ pounds against 6.8 last year. The season thus far has been one of extremes, and not favorable to small grain.

Real Estate Transfers.

List of instruments filed for in the recorder's office of Nodaway county, beginning July 1, 1921.

Napoleon Browning to Effie Browning, lots 15 and 16, block 3, Sovers add, Elmo, $1.00.

JUST MISSED GREAT SIGHT

Under the Circumstances Most Young Mothers Will Say That George Was Dilatory.

"George! Oh, George! Come! Come!" What was that? George Brightly sprang from his bed at the sound of his wife's voice raised in an earnest entreaty. "George! Oh, George!" She was in peril. She, whom he loved better than life itself; his young wife, his first and only love! "George! Oh! Oh! Quickly!" He scrambled into his clothes. Not a second must be lost. He must save her.

"George! George!! George!!!" At last he is on his way down, three steps at a time, to arrive, breathless, in the dining room. "Oh! Oh! George, you are too late! Too late!"

"Too late!" gasped George.

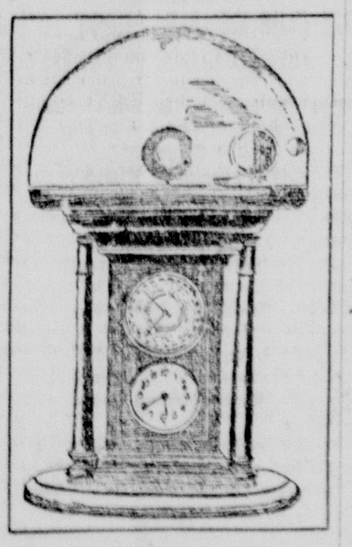
"Yes, the baby had his toe in his mouth, and he looked so funny! I did want you to see him! Why didn't you come when I called?"

DOES MORE THAN TELL TIME

Movements of Sun, Moon and Earth Accurately Represented by New Astronomical Clock.

What is said to be an improved astronomical clock represents the ideas and unrelenting work of an ingenious Chicagoan, Michael Bulka. This clock exemplifies and illustrates the movements of the earth and moon around the sun, with the moon swinging about the earth. These various movements, in concert with the actual happenings, typify the four seasons of the year.

In a glass dome surrounding the clock are three globes representing the sun, earth and moon. This group shows how the sun illuminates the earth and moon; how the earth revolves around its axis every 24 hours, giving us both day and night; how



Astronomical Clock.

the earth travels around the sun, giving us the four seasons of the year; how the moon revolves around the earth, thus changing its illuminated area; and how the earth and moon together revolve around the sun, giving us the 12 months in the year. The eclipses of the sun and moon, when they occur, are plainly depicted by the mechanism.

The globes representing the sun and moon have been coated with phosphorous preparation which radiates rays of light. The clock has two dials indicating time of the year and of the day.—Scientific American.

Red Men Not Really Red.

The American Indian is not a red man. His actual color is yellow and he is akin to the Japanese, Chinese and Koreans.

So says Dr. Clark Wissler of the American Museum of Natural History in the March number of the Mentor Magazine.

Scientists now believe that the Indian migrated to America from Asia via the Bering straits and Alaska, Dr. Wissler says.

Thank Indians for National Bird.

The Pilgrim Fathers did not "invent" turkey. Indians in the southern states domesticated the national bird and made him a regular item on their bill of fare long before the coming of the white man.

George Bird Grinnell, the man that knows the most about the Indian, says this in "First Families of America" in the Mentor Magazine.

Wound Fatal After Six Years.

Six years after being accidentally shot in the head with a miniature rifle, a woman died in the Wandsworth (England) infirmary. After the accident the woman became blind and paralyzed. The bullet was found in her neck at the post-mortem.

New Idea to Escape Jury Service.

A rigorous moralist obtained exemption from mixed jury service in Philadelphia. He told the judge that he had been married for 16 years to one woman, and he did not "want to be locked up overnight with any other woman." He was excused.

LEADER OF INNOVATION

Miss Maude Royden, leader of a movement to induce the Church of England to admit women preachers to its pulpits, has been permitted to conduct a week-day service in St. Paul's and St. Botolph's churches, despite the protest made by Rt. Rev. Arthur W. Ingram, bishop of London. Miss Royden was attired in a surplice and a close-fitting head dress of dark blue

Natural Error.

Reveille had been sounded and Private Pence came running out with his leggings on wrong. He jumped into the ranks and snapped into attention, but not until after the top kick had noticed his lapse from military sartorial perfection.

"Private Pence," he demanded angrily, "why have you your leggings on wrong?"

"It was just a personal mistake," answered the offender.

"Mistake?"

"Yes. I had my legs crossed when I put them on."—American Legion Weekly.

Watch That Premises Are Clean.

A man should keep his own household surroundings clean as a matter of pride and sanitary precaution. He should not allow refuse to accumulate, because refuse is a breeder of disease. Dirt is a danger, and dirt has been described accurately as "matter out of place." There should be no spasmodic cleaning up of the domestic premises, but a day-by-day process of keeping clean.

Anda Roof and W. C. Nelson of Parnell were business visitors here Friday.

M. W. Brumbaugh of Maitland transacted business here Saturday.

Robert Sanders of St. Joseph was a visitor in Maryville Saturday.

FATHERS AND SONS HAVE BANQUET AT SKIDMORE

Affairs Held Friday Night—Proceeds for Decorating Sunday School Rooms.

A Fathers and Sons Banquet was held Friday night at Skidmore the proceeds from which will be used for the purpose of decorating the Sunday School rooms in the basement of the church.

The following program was given: Toastmaster, F. H. Barrett; The Thrill that comes once in a Lifetime H. W. Montgomery; the Old Swimmin' Hole, J. C. Spahr; I Want to be a Partner With You, Junor Skidmore; I want You to be My Partner, Rev. C. E. Olson; My First Sweetheart, A. L. Oakerson and G. L. Owen; Chums, Rev. F. E. Edwards, Burlington Junction.

The largest nugget of gold ever found is said to have been the "Welcome" nuget, discovered in 1858 at Bakery Hill, Balarat, Australia. It weighed 2,217 ounces, and was sold for about $53,000.

In Japan the law never exempts a ject from military service by reason of residence in a foreign country.

"Then Where is Business"

Joseph and Isaac went to hear Billy Sunday preach, and after service, as they were going home Joseph said, "Vell Ikey, vat you tink of him?" "I don't like him," said Isaac. "Too much hell. It vas hell, hell, hell, all the time. I don't believe there is any hell Joey." "No hell?" asked Joseph in amazement. "No" answered Isaac "Vell, then Ikey," replied Joseph "if there is no hell where's pizness gone?

"Jitney" is derived from a Mexican word meaning "next to nothing," and was applied to the nickel in derision by gamblers shortly after the Mexican war.

It is estimated that one pound of sheep's wool can produce one yard of cloth.

The largest negro church in the world is in Chicago, with more than 10,000 members enrolled.

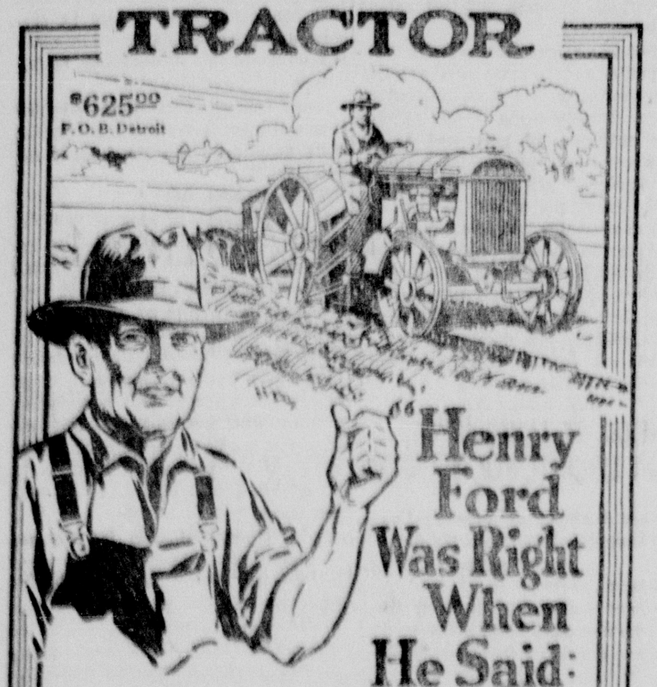
A Large Shipment of New Tires

We have just received a large shipment of tires, which now makes our stock very complete. Our prices on these tires are most reasonable; for instance, we are selling Ford size casings as low as $8 and $9. Other sizes priced proportionately low for their quality.

See us or call us and get our prices before buying your tires. And remember that we are selling the famous 'Miller, Geared-to-the-road tires."

Maryville Auto Wrecking Company

Fordson TRACTOR



"Henry Ford Was Right When He Said:

'The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth'."

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time—a machine which many farmers claim plows, harrows ... as much ground in the same time ... or even eight horses. And more ... that takes care of every power ... farm.

... and let's talk it over, or telephone or Lane Throp us a card and we will bring the facts to you. maint... ing ...

"Cmon to Colorado!"

Ride down sun-flooded, soul-stirring canyons; see memory-making nature pictures; row on rock-rimmed lakes; fish in fast-flowing mountain streams; lie under the pines and blink at the mottled sunshine, forgetful of business and household cares; tramp down winding forest trails; loaf in wild-flower-flooded valleys; stroll in the moon-light—out in "the great alone"; eat of the fat of the land and sleep like a babe. Rest—recreate—loaf—give Nature a chance to restore your physical vigor and mental poise.

One comes back with new strength, new health, new energy, new ambitions.

Does a back-to-nature vacation pay big dividends? Ask the man who regularly "knocks off" two or more weeks each summer and takes one—he knows!

Let me make arrangements for your trip well in advance, so you'll be certain of good accommodations.

The President's office is in the extreme rear of this building.

WHEN PA COURTED MA

Bought Her Popcorn, Played Croquet Took a Trolley Ride, Attended Ice Cream Social

The Girl Next Door was married recently. She had a "swell" wedding and started on her honeymoon in one of these twelve-cylinder cars that cost enough to start an old-time country bank. "A function like this," said her pa, who's in his fifties "takes us old-timers back to the days when we were courting ma. In those days, I got to work at 7 in the morning and didn't quit until 6, so it required a lot of hustling to get to my future father-in-law's before dark, in time to play a few games of croquet. I was a sport, so I took along a bag of popcorn.

A Trolley Ride

"If it happened to be a hot summer night, we took a trolley ride out to the end of the car line or some park. The street car was small and it rocked a lot. It was open at the sides, with seats running clear across and the conductor came along the running board to collect fares.

"Later on, as I got more prosperous, I followed the fashions and bought a piano-box buggy with red side-bars. If you drove one horse you were in style but if you could afford a spanking team you were a real sport. That was the Packard car of its day.

"Ma's skirts dragged on the ground in her courting days. She had a wasp-waist and leg-of-mutton sleeves and a jaunty little hat about the size of a cantaloupe.

"We didn't have movies. A star entertainment was an ice cream social at the church. By special arrangement, old-time ballads were sung, illustrated with colored slides.

"I remember that I proposed to ma after dancing 'The Blue Danube' waltz.

To Niagara Falls

"The real thing in honeymoons in those days was to take a wedding trip to Niagara Falls. If you had the car fare and it were '93, you honeymooned at the World's Fair in Chicago and marveled at the first moving picture and the first phonograph, with Tom Edison going around predicting great improvements.

"We visited ma's Aunt Cora in Chicago and I recall overhearing her say to the neighbors that ma 'married well and got a good provider.'

"One morning Ma and Aunt Cora wanted to do some shopping so I slipped out to the fair grounds and saw 'The Streets of Cairo' in the Midway.

"That was tame compared with the stuff pulled off now, but it was the height of daring for an old-timer.

"And you know, that exhibition on the Midway was a turning-point in American life. It marked the breaking away from the Puritan ideas, and was the forerunner of all this modern jazz, sensuous dancing and knee-length skirts.

"The young folks of today think that the courting couples of 20, 30 and 40 years ago had a tame time. Maybe we did but it didn't seem so then, and I really believe we enjoyed life more. At any rate, we were building up a wholesome America of honorable sons, respected womanhood and real home life. Maybe it was tame, but if I had it to do over again I wouldn't trade if for the present."—Jefferson City Capital-News.

Clark Horn of Elmo was a business visito rin Maryville Saturday.

Mr. and Mrs. Vernando Moore of the Harmony community visited in Maryville Friday.

Mr. and Mrs. Frank Rhoades of Clearmont were shopping in Maryville Saturday.

Charles Teson and family of Conception were shopping in Maryville Saturday.

KU KLUX KLAN FALSELY ACCUSED SAYS SIMMONS

The Two Men Whipped at Fairplay Recently Were Not Victims of That Organization

Atlanta, Ga., July 11.—Colonel William J. Simmons, Imperial Wizzard of the Knights of the Ku Klux Klan, in a statement issued today, challenged the statement printed in several Missouri newspapers recently to the effect that members of the Knights of the Ku Klux Klan had whipped two men at Fairplay, Mo.

"In the first place," said Colonel Simmons, "members of the Ku Klux Klan don't do business that way, and in the second place this organization has no branch or membership in Fairplay and we have assurances from persons in position to know that no member of this organization had any part in this affair. A reward of $100 has been offered for arrest and conviction of any person using the name of the Ku Klux Klan in this connection.

"If a man is whipped, or tarred and feathered, or run out of town by some of his neighbors who do not approve of his conduct it is very easy for those who dislike the Knights of the Ku Klux Klan to lay the blame on this organization, and this has been done in several instances by parties who had no more reason for accusing this organization than they had for accusing any other other patriotic, fraternal body.

"In this connection it is necessary only for me to say that the modern Knights of the Ku Klux Klan has been in existence only six years, yet I can easily recall instances in which men were tarred and feathered and even whipped and run out of town long before this organixation came into existence. No doubt if the Ku Klux Klan were to disband tomorrow we should continue to hear of such instances whenever a man's misconduct caused his neighbors to feel that they were warranted in handling his case themselves. I am not to be placed in the attitude of condoning such conduct, but I am merely stating what every man knows to be a fact and those who seek to put the blame for these affairs upon the Ku Klux Klan seek to slander this organization deliberately and maliciously and they do son for reasons which we fully understand."

JACK JOHNSON COMPLETES HIS PENITENTIARY TERM

Former Heavy Weight Champion Will Again Enter Ring—White Wife Pays His Fine.

Leavenworth, Kan., July 11.—Jack Johnson, former heavyweight champion is free.

Johnson has been in the federal penitentiary here since last September for a violation of the Mann act. His white wife is to pay a $1,000 fine for him in connection with his sentence and this, with time off for good behavior is responsible for the early release.

John's first act upon his release was to attend a reception and speak at a negro church here. He will go to Kansas City where he will be the guest at another negro reception. Later he will o east to consider offers to appear in the ring.

Dr. Day of Parnell was a visitor in Maryville Saturday.

Troy Milliken of Parnell was here on business Saturday.

MARYVILLE MAKES A HIT WITH FAIRFAX LAD.

Charles Duddle of Fairfax, 15 years old, spent the Fourth of July in Maryville visiting his uncle, W. L. Ruddle. The following is his opinion of Maryville as taken from the Fairfax Forum:

"Charles Ruddell spent the Fourth in Maryville with his uncle, Washington L. Ruddell. After interviewing him on the subject, The Forum has come to the conclusion that Maryville is one of the really large cities of the United States, for he saw more there than most folks see in a trip around the world."

(Continued from page 1)

further to say, but, before discussing them, it may be interesting to know that the public is unanimously of the opinion that my article was in no sense overdraw.

People a Unit

"On the contrary, I have been informed repeatedly that I dealt very mildly with Mr. Everhart. Be that as it may, Mr. Everhart has accepted the indictments without endeavoring to defend his position, and if his attitude continues to keep him in a state of defenselessness we can only deduct that it is immaterial to him whether or not he should attempt to vindicate himself.

"I have actually been amazed to know the public estimte of Mr. Everhart insofar as his dealings with the public are concerned. The things I refer to are so generally understood that it is needless to endeavor to bare them more than they already are. Howevef, that may be, the people are a unit in their demand for truthful representation and for absolute and unvarying weight with every purchase.

"Mr. Everhart has for years been advertising and pretending to sell pure double distilled and filtered ice and he has been reaping a harvest by reason of his false representations and because he constantly maintained a strangle-hold on the public.

"If his plant turned out double-distilled ice, as he advertises, (read it on the front page of your ice-book) you would receive, unvaryingly, a crystal-clear product, free from bacteria, and consequently, a wholesome and healthful necessity. All of us have noted, however, that his own product has been born with a yellowish complexion, indicating that the cakes have either been frozen in unclean containers or the water has been frozen without filtration or distillation,—or both.

Ice Not Pure!

"There is bound to be bacterial contamination in such ice, and consequently it is just as unsafe to use as contaminated water, for freezing doesn't destroy disease germs.

"We have noticed, all of us, that we frequently get a cake of ice with a large air space in the center of the cake and many times a certain porosity which gives the product an appearance of snow-ice. Mr. Everhart knows that is due to faulty manufacture, and he also knows that it will melt very much quicker than clear, solid ice. Then he knows that he can sell another piece just that much quicker. The public is acquainted will all of these details, too.

"When anybody gets the idea that the public is composed of a bunch of fools, then it is time to have another guess.

"In justice to Mr. Everhart, credit should be given to him for supplying us the last few days with hard, clear ice which he has shipped in. The only complaint we wish to register on that score is to have to pay the price he has recently exacted.

Buys at $3 a Ton

The information came to me from a source which I believe is a reliable one that ice can be contracted for in St. Joseph in carload shipments at $3.00 per ton, f. o. b. If that is true, it seems that, based on the residential or money-on-toy-of-the refrigerator rate of $1.00 per hundred pounds, the additional $17.00 for which it is sold should take care of the freight charges, (about $2.00 per ton), meltage and cost of delivery and still net the dealer at least a few cents profit.

"I have the information that the loss of weight in transit of ice shipments is approximately 8 to 9 per cent of the original bulk and may run slightly more in exteremly hot weather. Fixing the retail price at $20.00 per ton, a loss of not to exceed $2.00 per ton may be deducted on account of meltage. A residue is left of approximately $15.00 to the ton to cover freight charges, delivery costs and a small profit for the dealer. These figures are based, mind you, only on ice that retails at the rate of $1.00 per hundred pounds.

"With what I have given, anyone can easily figure the profit on shipped in ice, basing the selling price on Mr. Everhart's low level of 75 cents wholesale or .90 coupon and pay -in advance price. The humorous yet serious, side of the whole thing is that Mr. Everhart suffers no loss from the melting of ice, so, we cannot very well make the deduction of $2.00 mentioned above for shrinkage. Therefore, we may safely say that he is shipping in ice at a cost of $3.00 per ton, plus $2.00 per ton freight charges, which leaves him about $15.-00 per ton profit, less the expense of delivering. Looks pretty soft for him, yet we cannot well applaud him because of the fact that he has raised the price so high to the consumer that many good families in Maryville must forego the pleasure, as well as the necessity, of using any ice whatsoever.

"My friends, don't for a minute fear that I am going to make any false move in this matter, for, I am fortified with proof to back everything I say; otherwise Mr. Everhart would probably take me to a cleaning in court.

Demands Full Weight

"I stated that Mr. Everhart suffers no loss from the melting of ice. Nay —he makes the consumer pay for it, and I am in possession of almost unlimited proof to back up my assertions. If Mr. Everhart were engaged in business in any large city and persisted in short-weighting the people, he would find his bank-roll melting as fast as a snow-ball in Hades, trying to catch up in paying his fines.

"A hundred pounds means a hundred pounds and nothing more nor less, and I am right here to assert that short-weighting is a morbidly specialized form of robbery.

"As indicated in my former article, Maryville demands an ice plant of ample capacity, anticipating the present and future demands of the city, and it demands first quality and full weights—and without the slightest deviation. It demands civil and courteous treatment and first class service, and when it patronizes a business institution of any kind whatsoever, it expects all of the things just enumerated,—plus a "thank you" spirit on the part of the institution receiving that patronage.

"Besides, Maryville doesn't have room for any excess-profits concerns along any line of business. In time of depression, like we have been passing through for many month, every business would do the philanthropic thing to endeavor to make things easier for his felolw man rather than more binding.

Citizens Will Take Action

"If Mr. Everhart will pledge himself to the people of Maryville to endeavor to measure up to the standards set forth in this article, I should deem it a pleasure to grasp his hand, congratulate him and withdraw all opposition to his progress, but if he hasn't made up his mind to do so by the coming Wednesday evening, I can promise him some of the hardest opposition he has ever encountered.

"I therefore serve this notice to Mr. Everhart that if he is still unwilling to comply with the terms of this ultimatum, and not later than press time of next Wednesday, I am prepared to bring about the consummation of plans which will lead to the fulfillment of everything I have promised to secure for Maryville along the line of a plentiful supply of hard, clear and wholesome, full-weight ice, and, at a reasonable price at all times.

"If necessary, I shall make further announcements shortly after the coming Wednesday.

"DR. D. J. THOMAS."

Good Wheat Yields Reported

William Ramey, who lives on the Callahan farm east of Arkoe, reports that his wheat threshed out thirty bushels to the acre. His wheat is the Turkey variety.

The wheat on the Levi Wallace farm east of Maryville yielded thirty-two bushels to the acre on a twenty -acre tract.

Harding Back to Work.

Washington, July 11.—President and Mrs. Harding and the party of friend who spent the week end cruising on the Patomac river on the yacht Mayflower arrived here early this morning.

DeValera to London.

London, July 11.— Eammonn de-Valera, "president of the Irish Republic' will come to London Thursday for a conference with Premier Lloyd on the Irish Peace it was announced officially today.

Mrs. Ross Scott is visiting her parcents, Mr. and Mrs. Levi Wallace, near Maryville. Miss Lucile Lane of Kansas City is also a guest at the Wallace home.

Mrs. Henry Kellog living near Hopkins who suffered an attack of ptomaine poisoning while visiting at the home of John Vanfosson near Elmo yesterday, was able to be taken to her home this morning.

MISS MILLER TO NEW YORK TO ATTEND UNIVERSITY

Resigns Position Here and Will Take Work for Degrees at Columbia University.

Miss Mildred Miller, who recently resigned her position in the educational department of the State Teachers College here, will attend the State Teachers College of Columbia University at New York City the coming year to complete work for her master's degree and also to work on a doctor's degree.

Miss Miller recently received a telegram from Cedar Falls, Ia., offering her a position in the education department of the State Teachers College there which would have the rank of a full professorship and which carries a large increase in salary. Miss Miller has rejected the offer, however, to continue her school work at Columbia University.

MISS MURPHY ACCEPTS POSITION IN N. DAK. SCHOOL

Miss Ladonia Murhpy, who has been connected with the demonstration school of the State Teachers College, has accepted a position as assistant primary critic teacher in the State Normal School at Valley City, N. Dak.

FRAME OF NEW MASONIC TEMPLE COLLAPSES AT SALINA

Salina, Kan., July 11.—With a thunderous roar, the five story concrete frame work of the new Masonic Temple which is being erected here, fell shortly before noon today and three workmen were injured. The cause of the collapse is unknown.

ALLEGED BOOTLEGGER IS RELEASED ON $1,000 BOND

William McMichael, who has been held in the county jail since Thursday charged with the unlawful possession of intoicating liquor and operating a still, was released today after giving bond for his appearance in the September term of court on both charges. The bond for both charges was fixed at $500, and both were signed by his father, Robert McMichael and his brother, Mark McMichael.

Says He Made Poor Trade.

Tom C. Cooper filed suit in the circuit clerk's office this afternoon against Ward J. Linniger charging him with obtaining his car under false pretenses. Cooper state that last December he traded Linninger his Ford coupe, which he valued at $400, for four cows, valued at $50 each, a 7-year-old work horse valued at $75, and a kitchen cabinet valued at $50, which Linniger stated that he owned but which were on his ranch in Pueblo, Colo.

Later Linniger sold the car to another person and Cooper found out that he never owned the property which he claimed to have in Colorado, and brought suit against Linniger. Both parties were in Burlington Junction when the trade wa smade.

Announce Birth of Daughter.

Mr. and Mrs. Carl Sadler of Pickering announce the birth of a daughter yesterday whom they have named Darlene Marie. Before her marriage, Mrs. Sadler was Miss Mabel Hollensbee.

It Is Peculiar.

Newspaper guys are funny. Whenever they meet they always ask, 'What do you know?' The other says, "Nothing", and then the paper the next morning is filled with news.—Portland Oregonian.

She Had A "Come Back"

The extremely thin woman in the street car resented the stout woman's crowding her, and turning to her remarked, "They ought to charge by weight in this car." The stout woman looked at her contemptuously and remarked quickly, "Well, if they did, they wouldn't stop for you at all."

Miss Veronica Yeaman spent the week end visiting her aunt, Mrs. L. J. Doran of St. Joseph.

Fifty thousand miles of navigable water is provided by the River Amazon and its tributaries.

Records of the City of London show that there was a meat market at Smithfield as far back as 1253.

The District of Columbia is not a State and is nt represented by a star on the flag.

For cleaning glasses which have contained milk there is nothing to equal wood ashes.

Absinthe was at first used by the French only as a flavor for other beverages.

Miss Louvre Myers spent Sunday in St. Joseph visiting relatives.

OPPOSES GRAIN GROWERS.

National Organization Is Formed to Fight Farmers' Plan.

Cincinnati, June 27.—A National organization pledged to combat all class legislation wherever it appears in this country was formed here recently. It was stated that an active campaign in opposition to the United States Grain Growers, Inc., will be instituted at once.

The movement took form under the auspices of the National Grain Dealers' Association Representatives of business organizations from all over the country were present and while the immediate object of the attack will be made against the United States Grain Growers' reported campaign to pool the farmers' grain under a six year contract, the scope of the organization as planned, is much wider.

Resolutions adopted stated that the grain trade and general business interests are directly menaced by adverse legislation rising on demand of organized special interests.

It was said practically all of the great business associations of the country which are concerned in any way with the handling of foodstuffs are expected to join the association.

These include the United States Chamber of Commerce and other chambers of commerce; the Millers' Nation Federation, and the Flour Association, the National Feed Dealers' Association, the National Hay Association, the National Cotton Growers' Association, Growers of Potatoes and of Produce, Wholesale Grocers Association, Country Grain Elevators, all state grain dealers' associations, all grain exchanges, country banks and exporters on both the Atlantic and Pacific coasts.

The work of organization will be carried on by the Grain Dealers' National Association supported by the interests which were represented at the meeting today. A central organization will be established at Chicago.

A temporory executive committee was appointed as follows: R. I. Mansfield, chairman, Chicago; L. W. Forbell, New York City; Joseph E. Lawther, Dailas, Texas; John J. McHugh, Minneapolis, and B. F. Hargis, Kansas City, Mo.

Marriage Licenses Issued.

A marriage license was issued late Saturday to W. H. Craig and Miss Faye Jones, both of Ravenwood. E. L. Jones gave his consent to the marriage of his daughter, who is only 16 years old.

A license was also issued to Robert E. Lee of Elmo and Miss Dora Gladys Knapp of Burlington Junction.

Visited in South Dakota.

Mrs. Lester Masters has returned from a visit of three weeks at Dell Rapids, S. Dak. where she was a guest of her brother, Walter Hilsenbeck.

Speeder Draws $5 Fine.

Ernest Schenkle was fined $5 and costs by Mayor F. P. Robinson in police court Saturday night for speeding on West First street. Night policeman, Ed Wallace made the arrest.

Mr. Edmonds No Better

The condition of William Edmonds of Burlington Junction who has been ill for the last five weeks, is very serious.

Miss Mildred Nicholas, an employee of the Yehle Dry Goods Co., is at Soldier, Kas. visiting her sister, Mrs. J. O. Roller and family.

DARING GIRL ARTIST

Eager to sketch cliff dwellings and to catch the exquisite colorings of canyon walls, Miss Dora Montague of Salt Lake City allows herself to be swung from dizzying heights on a narrow board seat. The photograph shows her sketching while swinging over a sheer drop of hundreds of feet in Zion National Park, Utah.

Paints With Left Hand.

Afflicted with paralytic nerve shock due to an automobile accident and without the use of his right arm, a Chicago man has trained his left hand to handle a brush and has turned to painting. His paintings bring a good price in the market.

Much Wheat From China.

In 1920 almost six million barrels of Chinese flour were shipped to Europe. New mills are to be built in the wheat-growing sections.

Mrs. Blanche Lawler, Miss Charity Wiseman and Miss Floy Saunders, employees of the Yehle Dry Goods Co., are enjoying vacations of two weeks.

Brought Aid by Airplane.

When the South Platte River was a raging torrent recently with all bridges washed away, a woman lay dying for lack of medical attention two miles from a physician on the opposite side of the river. When all hope seemed gone the doctor remembered that the Postmaster General had "humanized" his department. He secured a mail airplane and made the trip, receiving the authority afterward.

Admitted to Hospital

Mrs. Si Briggs was admitted to St. Francis hospital Saturday afternoon for treatment. James Patterson was admitted yesterday afternoon.

Sell President's Piano.

The Navy Department has asked for sealed bids on a piano from the President's yacht, Mayflower. So many offers have been made for the old instrument by hunters of historical curios that this procedure was necessary to give everybody a chance. A new concert grand is replacing the old one.
